RE: Technology information/Health

Hello Parents,

I wanted to give you information and passcodes for you children to help with distance learning in this class. Please, please reach out to me if you need support at any time! pcote@apsedu.org

The students already have a Google Classroom for Technology. They know how to get there. Lessons will be posted, along with videos, links, Screencasts, etc. starting on 4/21. Their only assignment for 4/14 is to show you how they sign into Google Classroom, Technology; follow the link to Flipgrid; sign in with Google; record a message to their friends.

In addition, I have created a Google Classroom for Health. Your child will need to join this class. The directions on how to do this follow:

- Navigate to Google Classroom-find the 'waffle' in the upper right corner of the screen

- Click the + sign in the upper right banner. It will ask for a class code.
Enter: **fmosstn**
- You are done!

Best wishes to you and your family. Thank you for all you are doing at home to make learning possible!

Sincerely,

Mrs. Cote
