**Tylenol, Benadryl, & Tums
Administration in School**

The school doctor has provided a standing-order to administer one or two 325mg tablets of **Tylenol** as needed for menstrual cramps/headache/pain (chewable or liquid Tylenol will also be available). **Tums**- 1-2 tablets as needed for stomachache and heartburn. **Benadryl** – 1-2 tablets as needed for allergies or bee stings/bug bites. ****It is the responsibility of the parent to notify the School Nurse IN WRITING if there is a change in their child's health status which as result of administration of any of these medications could be detrimental (ie: conflicts with new medications (Tums and certain antibiotics), start taking allergy medication at home on a daily basis (ie: Claritin, Sudafed etc.).****

If you want the nurse to administer Tylenol/Tums/Benadryl to your child for the 2021-2022 school year, please complete and sign the form below and have your child return it on the first day of school. Nurse will have these medicines available, you will not have to bring in your own. These medicines will be used only if needed, ice for headaches and bug bites etc. will be attempted first.

Thank you.

Laura Griffiths, BSN, RN
Alpha School Nurse

Please complete, sign and return to homeroom teacher as soon as possible.

I give permission for the school nurse at Alpha Public School to administer during the 2021-2022 school year.

Place an X next to what medication you would like the nurse to administer:

Tylenol _____ **Tums** _____ **Benadryl** _____

Students Name: _____ Age: _____ Grade: _____

Signature of Parent/Guardian: _____ Date: _____
